A Station-to-Station Call is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, department or an extension telephone reached through a private switchboard.

A Person-to-Person Call is one on which you ask for a certain person, a department or extension telephone reached through a private switchboard.

BUSINESS TRANSACTIONS WITH THE COMPANY

Business Office—421 N. 4th. Hours—8 A. M. to 5 P. M. except Sundays and Holidays. At other times calls for the business office will be answered by a representative who will handle business requiring immediate attention and who will arrange for the handling of other business on the following business day.

Bills which are issued monthly cover local service charges for one month in advance of the date of the bill and long distance charges for one month preceding the date of the bill. They are due upon presentation. Payment may be made by mail or in person at the business office.

Regulations and rates applicable to the furnishing of the various services by the telephone company are contained in tariffs on file in the business office.

GENERAL INFORMATION

Service Can Be Suspended at a reduced rate and your number retained when you are to be away from your residence for an extended period. No charge is made to reconnect service.

Telegrams by Telephone—You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill. You may also telephone your telegram from public coin box telephones and pay for the message as you would for a telephone call.

Telephone Directories —The Telephone Company issues directories to assist it in furnishing service, but it does not guarantee correct listings therein. The Telephone Company shall not be liable for damages arising out of errors in or omissions from its directories, except as provided for in the regulations and tariffs filed in the business office. Directories are the property of the telephone company and are loaned to subscribers only as an aid to the use of telephone service and are to be returned to the telephone company upon request.

Directories of Other Cities—If you wish telephone directories of other cities, we will obtain them for you. Prices and other information can be had by calling the Business Office.

Telephone Attachments — Attachment of auxiliary apparatus to telephone instruments generally interferes with service. Therefore, we request you to refrain from attaching any devices, not supplied by the Company, to the telephone instrument or other equipment. For the same reason, we also request that no advertising devices be attached. The telephone company reserves the right to remove all such apparatus and devices.

LONG DISTANCE CALLS

To Make a Station-to-Station Call—Give the "Long Distance" operator the name of the town and the telephone number or street address of the person you are calling. A station-to-station call is one on which you will talk with anyone available at the telephone called. Charges begin when the number called has been answered and are based on an initial period of three minutes. Station-to-Station calls cost less than Person-to-Person calls.

To Make a Person-to-Person Call—Give the "Long Distance" operator the town, the name of the person you want, and his telephone number or street address. Charges begin when the calling person speaks to and receives a response from the called person and are based on an initial period of three minutes.

Reduced Rates are in effect between 6 P. M. and 4:30 A. M. each week day and at all hours on Sunday on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls, and in general, 50 cents for Person-to-Person calls.

To Reverse the Charges notify the operator when you place the call. There is no extra cost, except on Station-to-Station calls of 20 cents or less for the initial period which take a higher rate when sent collect. When placing a collect call, the operator will ask the person you are calling if he will pay the charges.

Long Distance Conference Service permits connection to your telephone line of persons in different cities so that each can talk with the others. Just call "Long Distance" and ask for the Conference Operator.

International Telephone Service—Information on telephone service to overseas points and the rates applicable may be obtained from the Long Distance operator. Some typical week-day rates for a three-minute call are: To Argentina, Australia, Denmark, the United Kingdom and the U.S.S.R., $12; to Hawaii and Panama, $9; to Bahamas, Puerto Rico and Bermuda, $7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

Telephone Recording Signal

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line. This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder, the signal is no longer heard. The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

The BIG little thing

Your telephone is so small you can hold it in your hand; so big it can carry your voice across the world.

To furnish you with the kind of telephone service you desire, we obtain the best in telephone equipment from the Western Electric Company. Our association with the American Telephone & Telegraph Company provides nation-wide and world-wide long distance facilities and use of the famous Bell Laboratories for research purposes.

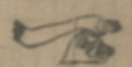
These advantages, plus service connections with other Telephone Companies throughout the country, make it possible for us to serve you—any time, any place, for business or pleasure, or emergencies.

Yes, your telephone is a big little thing – big enough to dissolve barriers of time and distance —little enough to be a friend and neighbor in your community.

NORTHWESTERN BELL TELEPHONE COMPANY

Be quick to answer when your telephone rings.

Be slow to hang up after you've placed a call . . . give them time to answer.



Be sure you replace the receiver when you're through talking.

Your co-operation will help everyone get *good telephone service.*

Mr. Architect
Mr. Contractor

An important feature of modern homes is concealed telephone wiring with telephone outlets in rooms where portable telephones can be plugged in. The cost of installing concealed service entrance and wall conduit is low if included when the home is being built or remodeled.

We will be glad to help you plan for modern home telephone facilities. Just call 600 and ask for Architects' Builders' Service.

Keeping telephone service to your liking calls for millions of dollars worth of equipment and millions of dollars in payroll for the thousands of telephone workers needed to make it function.

TALK DIRECTLY INTO THE TELEPHONE

The proper way to use the telephone for best results is to hold the transmitter directly in front of the lips and talk clearly and naturally.

Builders
See Contractors–Building

Mr. Builder
Mr. Contractor

An important feature of modern homes is concealed telephone wiring with telephone outlets in rooms where portable telephones can be plugged in. The cost of installing concealed service entrance and wall conduit is low if included when the home is being built or remodeled.

We will be glad to help you plan for modern home telephone facilities. Just call 4600 and ask for Architects' Builders' Service.

WHY CONDUIT IS NEEDED FOR TELEPHONE WIRES

Telephone entrance conduit improves the appearance of a home. Telephone conduit in walls provides for concealed wiring to telephone outlets in rooms where portable telephones can be plugged in.

Telephone service engineers will assist without charge in planning for telephone conduit and wiring. Just call 4600 and ask for Architects' and Builders' Service.

Want to be sure of getting the right product before you buy? Then turn to the heading in these Yellow Pages that describes what you want — under which you'll find someone to help you.

NEIGHBORLINESS PAYS

Few are the places where courtesy and willingness to co-operate pay off so richly as on party-line telephones. If you have this service, you've probably found it out for yourself.

The more neighborly those who share a telephone line, the better all hands fare.

SCIENTIFIC PEST CONTROL

ASK FOR FREE BOOKLET

Arwell Services

FREE INSPECTION
This confidential service includes an investigation by laboratory trained experts who diagnose your problem and impartially recommend the proper method to best serve your interests - without obligation on your part.

EXTERMINATION and LICENSED FUMIGATION
Through years of research our laboratories have developed the proper formulae for the immediate control and extermination of pests, vermin, etc., in industrial plants, apartment houses, homes, institutions, etc.

FLY CONTROL
Scientific developments make it possible to "fly proof" properties for the entire season.

TERMITE CONTROL — MOTHPROOFING
Written "Guarantee of Protection." Play safe - If you suspect Termites or Moths ask for free inspection.

PEST CONTROL PRODUCTS
Scientifically compounded. Available in convenient packages for those who prefer to do their own work.

Before You Insulate

After homes are insulated, it is difficult and sometimes impossible to conceal telephone wires. If you plan to insulate your home, it's important to provide concealed wiring to telephone convenience outlets before starting the job. Just call 4600 and ask for Architects' and Builders' Service.

Many Teams at Work for You

Throughout the rural areas we serve, construction teams are hard at work . . . putting in lines that will bring telephone service to more and more people.

We'll keep up the pace until we reach our goal; Rural telephone service for everyone who wants it.

Mr. Home Builder
When you are planning your new home, you can be sure of getting the telephone arrangement you need if you let telephone service engineers assist you in planning for concealed service entrance and inside wiring with telephone outlets in rooms where portable telephones can be plugged in. There is no charge for this service. Just call 4600 and ask for Architects' and Builders' Service.

Good telephone service for party liners . . .

Party-line service is good service when those on the line co-operate to make it so. Here are some of the things you can do to get the greatest value from your party line:

1 — When you have several calls to make, allow a little time between them. That gives others on the line an opportunity to make or receive calls.

2 — If the line is in use when you try to call, hang up quietly. Wait awhile before trying again.

3 — If you have children, teach them party-line courtesy, too.

Your courtesy and consideration will encourage others on the line to follow your good example. When everyone is trying to co-operate, everyone has better service.

OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

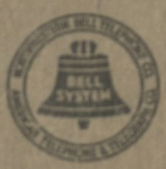
Operating under this policy, the Company has a three-fold obligation as follows:

Our obligation to the public is to provide pleasing and constantly improved and broadened service, which is as free as possible from errors, imperfections and delays and to furnish such service at the lowest practicable charges.

Our obligation to employees is to pay wages that are in all respects fair and just; to provide safe and agreeable working conditions, and to deal fairly and considerately with each individual and group.

Our obligation to investors is to provide every reasonable safeguard for the money thousands of men and women have invested in the business and to operate the property so that it will yield a fair return.

NORTHWESTERN BELL TELEPHONE COMPANY



BELL SYSTEM
